Dear Nick,

I would just like to take a quick moment to express our thanks for your assistance and support with regards to the domain and host transfer that was recently carried out for our company's e-mail and website services.

We are very pleased with the end result, and the actions required on our side was very little with your kind guidance. The transfer was also done quickly and effectively with minimal service downtime.

We will certainly engage your services again in future.

Many thanks!

Best Regards,

Yi Shan,
