**RE: TESTIMONIAL LETTER**

We found our project at Firstcom Solutions Pte Ltd handled in a highly satisfactory manner. The project manager assigned to us, Amanda Ng has been working closely on our project right from the beginning all the way through to completion of our corporate rebranding, logo redesign and website development projects. Amanda has been a great source of assistance throughout and is always prompt and efficient in her response.

Firstcom is lucky to have an employee like Amanda who is not only good in managing projects, but is also skilled both technically and creatively. On top of that, she renders excellent customer service and is very easy to talk to. This is a person that any client would be happy to work with.

We can highly recommend Amanda Ng and we look forward to working with her again on various other projects.

Yours Sincerely,
