

TESTIMONIAL LETTER

To whom concerned,

We found **Firstcom Solutions Pte Ltd** a great company to work with. It's rare to find an IT company who understands user requirements well and able to deliver the project with minimum user's involvement but yet exceeded user's expectation. Firstcom has a strong team in in both creative and technical aspects.

Although there was some hic-cups of staff replacement for our project initially, Firstcom has never failed to get a substitute immediately to follow-up on our project closely.

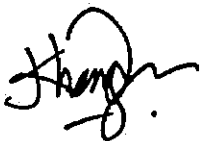

We've had the pleasure to have Amanda working with us on our project and we are very happy with the result.

What is more important is the post project support she has rendered us. Though there are many things beyond her control, she tries her best to liase with her team and gets the work done for our adhoc requests. She is professional, quick, and dedicated. She understands my requirements very well and able to communicate my requirements to her team to come out with great work. When I have doubt if the request has been attended to as update could be slow sometimes, the work has been completed with minimal changes required.

Well done, Amanda.

We highly recommend Amanda and we look forward to working with her again on many projects.

Yours truly,

Lok Kheng Fun
Director
KR Simei Pte Ltd
