I am pleased to write this letter of recommendation for you as a satisfied customer of Firstcom Solutions under the care of Project Executive, Samuel Tay.

He has been of great help and has helped to complete my project after the previous in-charge left. His prompt replies and great assistance has allowed my project to be completed within a short amount of time. He has made the experience of building the website easy and enjoyable. He listened to our wants and needs and then went the extra mile to find the best solutions.

The best part of working with Samuel is that even after the project is completed, he has kept in touch to ensure that everything is working perfectly. I highly recommend him as your project executive.

Thank you for the excellent service you have provided and I wish you all the best.

Sincerely,

Mok Yi Shan
