## TESTIMONIAL LETTER

To whom concerned,

We found **Jennifer Ng** from **Firstcom Solutions Pte Ltd** great to work with. She has been working very closely on our project and we have a great time liaising with her throughout our website development.

It's rare to find somebody who has equal strengths both creative and technical aspects, and they utilise both strengths very well. Very professional, quick, and dedicated. Even when we had difficulties on designing our website, Jennifer was very patient in assisting us throughout and I find that is the most important aspect that is required when handling customers like us who have little or no knowledge. She even went the extra mile in assisting us after work hours which shows her passion and dedication in her work.

We can highly recommend Jennifer and we look forward to working with her again on many projects.
