TESTIMONIAL LETTER

To whom it may concern,

We found **Firstcom Solutions Pte Ltd** a great pleasure to work with. Joshua, the project manager, has worked closely with us on our most recent project and we have had the great pleasure of liaising with him till the completion of our website development. We sincerely appreciate his patience and great work ethics.

It was rare to find somebody who was able to fulfil our requirements - both creatively and in the technical aspect, but he has managed to wow us with his dedication to ensure that all our needs have been met. Joshua is disciplined, focused, and always managed to meet the datelines we set time and time again.

We highly recommend Joshua and look forward to working with him again on future projects.

Yours truly,

Donavan Lee
