Subject: Testimonial for great service and work

Dear all,

This letter serves to commend the great service that was provided by FirstCom Solutions over the past year in regards to our website.

As with most projects, the requirements are bound to change when you have a new idea or find something better. However, FirstCom has been professional and recommended the functions that should be focused on first and what can be done in the second phase even though they could have agreed on our ideas and charged us accordingly.

Their commitment to placing client's needs first is what sets their company apart from other vendors and I believe all clients are in great hands.

Furniture Club would also like to thank Brenna for the hard work and patience extended to us during our meetings. She has been extremely helpful in giving us suggestions to our complex situations and coordinating with the backend team to bringing our vision to life.

All in all, our experience with FirstCom has been great and we will definitely be working with FirstCom again for our IT needs.

Best Regards,
Javier Ang
