

Maxwell Food Centre, #01-92

Ms Aderlene Foo and her team has been a great help to me during this covid-19 period.

Going online with this solution has benefitted us greatly as I do not have to pay other merchants a fee when customers order food from us. This solution has enabled me to keep this business afloat during these difficult times.

FirstCom Solutions team has been very professional in the whole process, from helping with the system to the development of the website as well as the photos taken. Their swift response and expert knowledge has helped make this journey smooth and also quick.

Prompt and on time, I am glad to have worked with FirstCom Solutions!
