

The Archers' Crest

Achieve Your Peak Performance

Testimonial for Darren Say

Darren has completed the **Ecommerce Development+Online Inventory Management Version 0.9 - Ecommerce Development & Online Inventory Management (OpenCart/WooCommerce)** project with me over the last few months. I will like to commend on his tireless efforts to meet my requests and his high expectations on himself to provide be with a great customer experience.

Being trained in IT myself, I understand the demands to juggle several projects while maintaining quality and service excellence. Darren has demonstrated his abilities to do so. I hope Firstcom can continue to support him in his growth, development and recognition.
